Wind And Fire Chimes

Copper Cattail Wind Chimes Make Their Debut

Booth 2814
North Hall

Copper cattail wind chimes will make their debut here at the NW Flower & Garden Show, and they figure to be a hot ticket item for the thousands of Show-goers who flock to see the event even selling out at the prestigious Philadelphia Flower Show!

Jaron Reeser is a Metal Artist from Pickerington Ohio making Copper and Bronze Windchimes that are all handmade and each have a unique patina offering a rainbow of color and years of enjoyment.

The cattails are installed in the ground with a provided mount and the sound can even be adjusted to your liking as they swing back and forth making a bell like sound.

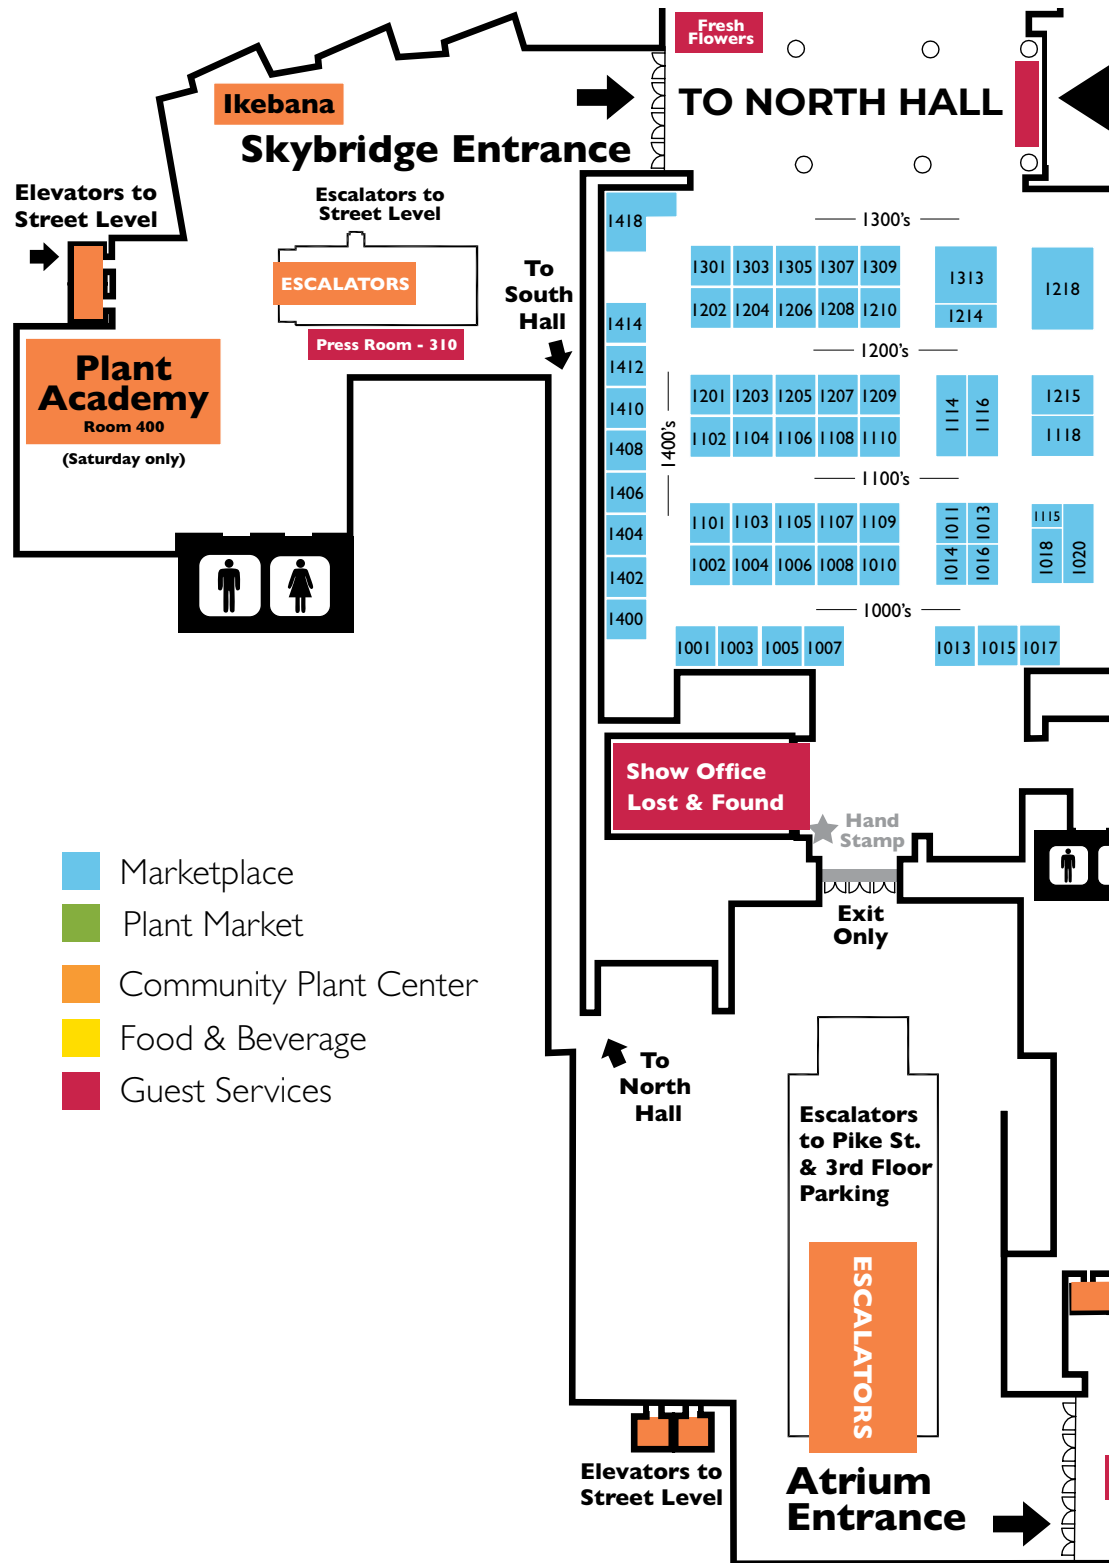

T&L

Proud growers of the highest quality plant material for garden centers and landscapers in the Pacific Northwest for over 30 years.
