Show Management reserves the right to make final decisions with regard to the following:

**Floor Covering** - It is mandatory for exhibitors to have floor covering (carpet or other appropriate alternative) completely covering the exact dimensions of the space designated so that no concrete is exposed. Exhibitors with floor coverings of poor quality and appearance, or inaccurate dimensions will be required to provide a replacement of acceptable standards.

**Lighting** – the lighting in the Vancouver Convention Centre during the **Vancouver Fall Home Show** will be ambient. Please provide your own lighting.

**Exhibit Boundaries** - Nothing, including carpet may project past the outer boundaries of an exhibit into the aisles or an adjoining booth. Display material must not obstruct visibility of adjacent booths and should not exceed eight (8) feet in height. Exceptions to the eight feet limit for display of merchandise may be obtained from Show Management prior to the move-in. Any portion of a display or signage above 8' must be professionally finished on the reverse.

Note: Security personnel will not permit access to the premises prior to one hour before show opening without this authorization.

## 20. Electrical & Lighting

Power is provided by the Vancouver Convention Centre. You may find the Electrical Services Request Form in the Exhibitor Kit. This form must be submitted to the Vancouver Convention Centre. The **Vancouver Fall Home Show** advises that lighting levels within the exhibit hall during show hours will be ambient.

It is suggested that all exhibitors would be well advised to supplement facility lighting with their own or rented lighting.

All hook-ups to building electrical service must be done by Vancouver Convention Centre technicians.

The following requirements must be adhered to in the installation of all temporary electrical and lighting equipment or service:

Open clip sign sockets will not be permitted. Porcelain sockets will be accepted. The use of latex cord wire in displays will not be permitted. Use of duplex or triplex plugs will not be permitted. Exposed wire must be three-wire grounded of proper size to serve the fixture to which it is attached. Electrical fixtures and fittings must be C.S.A. listed. Vancouver Convention Centre Technicians will refuse connection where wiring constitutes a fire hazard or is contrary to the Canadian Electrical Code. All electrical installations are subject to inspection by Stadium Technicians and the City of Vancouver Electrical Inspector. A City inspection fee is chargeable to the tenant.

**NOTE:** Vancouver Convention Centre electrical technicians will provide a power drop only to each display if requested. Extension cords to move the power source within the exhibit display space must be provided by the **EXHIBITOR** or rented from Vancouver Convention Exhibitor Services.

The Electrical Protection Branch, BC Department of Labour requires that all electrical equipment must be approved before it is lawfully advertised, displayed, offered for sale, sold, or otherwise disposed of or used in the Province of British Columbia. electrical equipment in, on, or about their booth complies with the above regulations.

Electrical equipment for which CSA approval is sought should be submitted to:

This is to protect the belongings of all exhibitors.

### 37. Move-In/Move-Out Facilities

The Vancouver Convention Centre is a unique facility in the busy downtown core of Vancouver, and guidelines must be followed to facilitate loading and transportation movement. Exhibitors not on hand to receive their shipments may find that they have not been accepted and have remained with the carrier.

Show Management provides forklift service from the truck to the exhibit booth location. No vehicles will be allowed entry to the facility until the aisle carpet has been rolled up and the masking tape has been removed. This usually takes approximately 2 hours after show closing.

Vehicles will be directed into the facility for loading only when their display is fully dismantled and ready for loading. This is to ensure that as many exhibitors as possible can move out without congesting the facility.
