Building Management strictly prohibits the following:

- The fastening of nailing strips to any of the building walls, by any means.
- The painting of floors or walls in any part for the building.

**freight free

Freight free aisles will be regularly monitored by the floor managers and all items found in these aisles (such as crates, carpet, boxes, etc.) will be required to be moved immediately.

In addition to the freight free aisles, it is also essential that all emergency exits from the building be kept clear. Similar to the freight free aisles, all items found blocking the emergency exits will be asked to be cleared immediately by the floor managers.

In order to assist with sufficient work space, move-in times assigned must be noted and respected. Exhibitors are encouraged to carefully plan their move-in and only move in display items as required (i.e. move in office furniture once carpet is laid). We appreciated your cooperation with this policy.

Management has appointed Global Convention Services as the sign contractor. We suggest that you order your signs well in advance of the show.

Any signs hung above a booth by Calgary Stampede Event Services must have proof that the sign complies with Fire Regulation and rating CAN/ULC-S109.

Price signs pertaining to competition are not permitted. Where price must be advertised, signs must be small, neat and inoffensive, and Marketplace Events shall have the right to prescribe the character and number.

Banners to be hung – Please contact Calgary Stampede Event Services well in advance of the show (order forms are in the Exhibitor Kit online) to arrange for banner hanging. Banners cannot always be hung over your exhibit due to the limitations of the ceiling beams. Any banners or signage deemed inappropriate by Show Management will be removed at the exhibitor's expense.

slips, trips & falls

During move-in, there may be a considerable amount of debris, water and snow on the floors that can cause potential injury. We ask that exhibitor's onsite employees and/or suppliers/contractors be continuously aware of their surroundings and alert to potential hazards. In addition, everyone must comply with the following procedures:

- All work areas/booth spaces are to be kept in reasonable order and materials not in use (i.e.: tools, wood, etc.) be appropriately stored.
- Reinforce with employees positioning of materials at booths to minimize congestion as much as possible.
- Reinforce with employees placing waste in appropriate waste containers.
- All vehicles entering the buildings must have competent drivers and ensure that precautions are taken to avoid excess snow, rain, oil, etc. on the show floor.
- All vehicles and trailers must be in proper working condition with no fluid leaks.
- Utilize the minimum amount of packaging required and return packaging when possible (i.e.: wood, reusable packaging, etc.)
- Notify Show Management of any unsafe practices or conditions noticed that could pose a potential hazard.

The use of live bands, recorded music, public address systems, etc., is not permitted on the show floor or within the grounds of the BMO Centre unless authorized by Show Management.

Hand and power operated hand tools may need to be utilized on the show floor, please review the following requirements for the use of tools:

- Ensure all staff operating tools are competent and knowledgeable on the proper and safe operation of such tools. Pre-show training, regarding the operation of power operated hand tools, is recommended as required.
- Ensure all move-in and move-out staff are properly equipped with the appropriate tools for completing tasks. All power tools must be in safe working condition with the appropriate safety mechanisms.
- All staff operating tools are required to wear appropriate personal safety equipment. Safety gloves and glasses are essential when risk of hand and eye injuries is high.

vehicular traffic

In order to maintain freight free aisles and avoid congestion, vehicles allowed on the show floor at any one time will be restricted.

The loading area can become very congested and therefore all exhibitors are asked to respect their move-in times as per the schedule.

For those exhibitors with small loads, dollies will be on loan to assist with the transfer of material to the booth location, we ask that this be done safely and efficiently and that your vehicle be moved as soon as possible to allow your fellow exhibitors the space to also move-in.

If you do require access onto the show floor with your vehicle, there are a couple of policies you need to follow:

- Obtain approval from Show Management
- All drivers must be competent and capable of maneuvering in confined spaces. They need to respect the rules of the road and show floor.

- Proper extension devices (i.e.: ladders) must be used. Ladders higher than 10' are not permitted for safety reasons.
- Items such as tables, chairs, boxes etc. shall not be used to lift a person or to be stood upon.
- All ladders should be maintained in safe working order with suitable heights, weight loads, non slip footings, rung spacing and tethers capable for what they are subject to (must be CSA Approved).
- When in use, ladders also need to be placed on a firm non-slip ground surface.
- Ensure onsite employees and/or suppliers/contractors working at heights comply with all the local fall arrest and fall protection legislated requirements.
- Proper fall protective equipment (i.e.; lanyard and safety harness) must be worn when working at heights over 3 meters.
- Ensure a safe and engineered approved anchor is used as the fixed support system for fall protection equipment and that the anchor system meets weight and height requirements for the task.
- Ladders are not to be used as working platforms. If working at a height is required for an extended period, proper platforms must be used.
- All Exhibitors, on-site employees and/or suppliers/contractors working at heights must be trained and understand the proper use of fall protection equipment and extension devices.
