FLOOR COVERING INFORMATION

What is Floor Covering?

It is a material such as carpet, foam tiles, or some type of clean, professional-looking floor covering that covers 100% of the booth.*

Why do I need Floor Covering?

- Floor covering makes the booth more aesthetically inviting to attendees.
- It also adds a comfortable surface to protect your feet and knees from standing on concrete.

Where can I get a floor covering?

- You can rent a piece of carpet for the size of your booth from the Official Show Decorator, Southern Exhibition Services. This year's prices and order form can be found on our website in the [Vendor Kit](#).
- You can also bring your own flooring! It is cost efficient to invest in flooring if you will be doing more MPE shows. Our company mandates that flooring is used in booths for all of our shows.

*Sheets, tableclothes or fabric are not considered flooring.

**Any damage (including unremoved tape or residue) to the Park Expo & Conference Center's existing floor will be repaired at the Vendor's expense.

Flooring examples:

- Thin-cut carpet can be bought at Home Depot, Lowe's, or many large hardware stores. Approved product example: [CLICK HERE](#).
- Foam tiles are popular and can be bought online through a wide variety of companies, such as Amazon, Walmart, or Costco. Approved product example: [CLICK HERE](#).

Tip:

Think safety! If providing your own flooring, make sure to secure flooring to avoid trip hazards. Please use cloth tape as it is both durable for heavy foot traffic, but also does not leave residue on the floors. Approved tape includes Shurtape DF-642 & Shurtape PC-618. ** (If you rent carpet through Show Decorator, it will automatically be secured for you.) Approved product example: [CLICK HERE](#).
