# JASMINE ROTH

**Happy Homes, Design Confidence, and the Tools Every Homeowner Needs**

**DESIGNER, BUILDER, AND HGTV STAR** Jasmine Roth has made a career out of rescuing renovation disasters, crafting custom homes, and showing everyday families how to fall back in love with their spaces. Winner of the first season of *Rock the Block* and the fearless host of *Help! I Wrecked My House*, Jasmine blends approachability with serious construction know-how—making her one of HGTV's most trusted voices in home design.

Her path began long before television. Growing up in Virginia, Jasmine spent weekends building playhouses and furniture in her dad's garage. That early curiosity eventually led her to Northeastern University, where she studied business and entrepreneurship before launching her boutique development company, Built Custom Homes, in 2017. Since then, her projects have included *A Very Brady Renovation* (which earned an Emmy nomination), *Hidden Potential*, *Brother vs. Brother*, and *Extreme Makeover: Home Edition*.

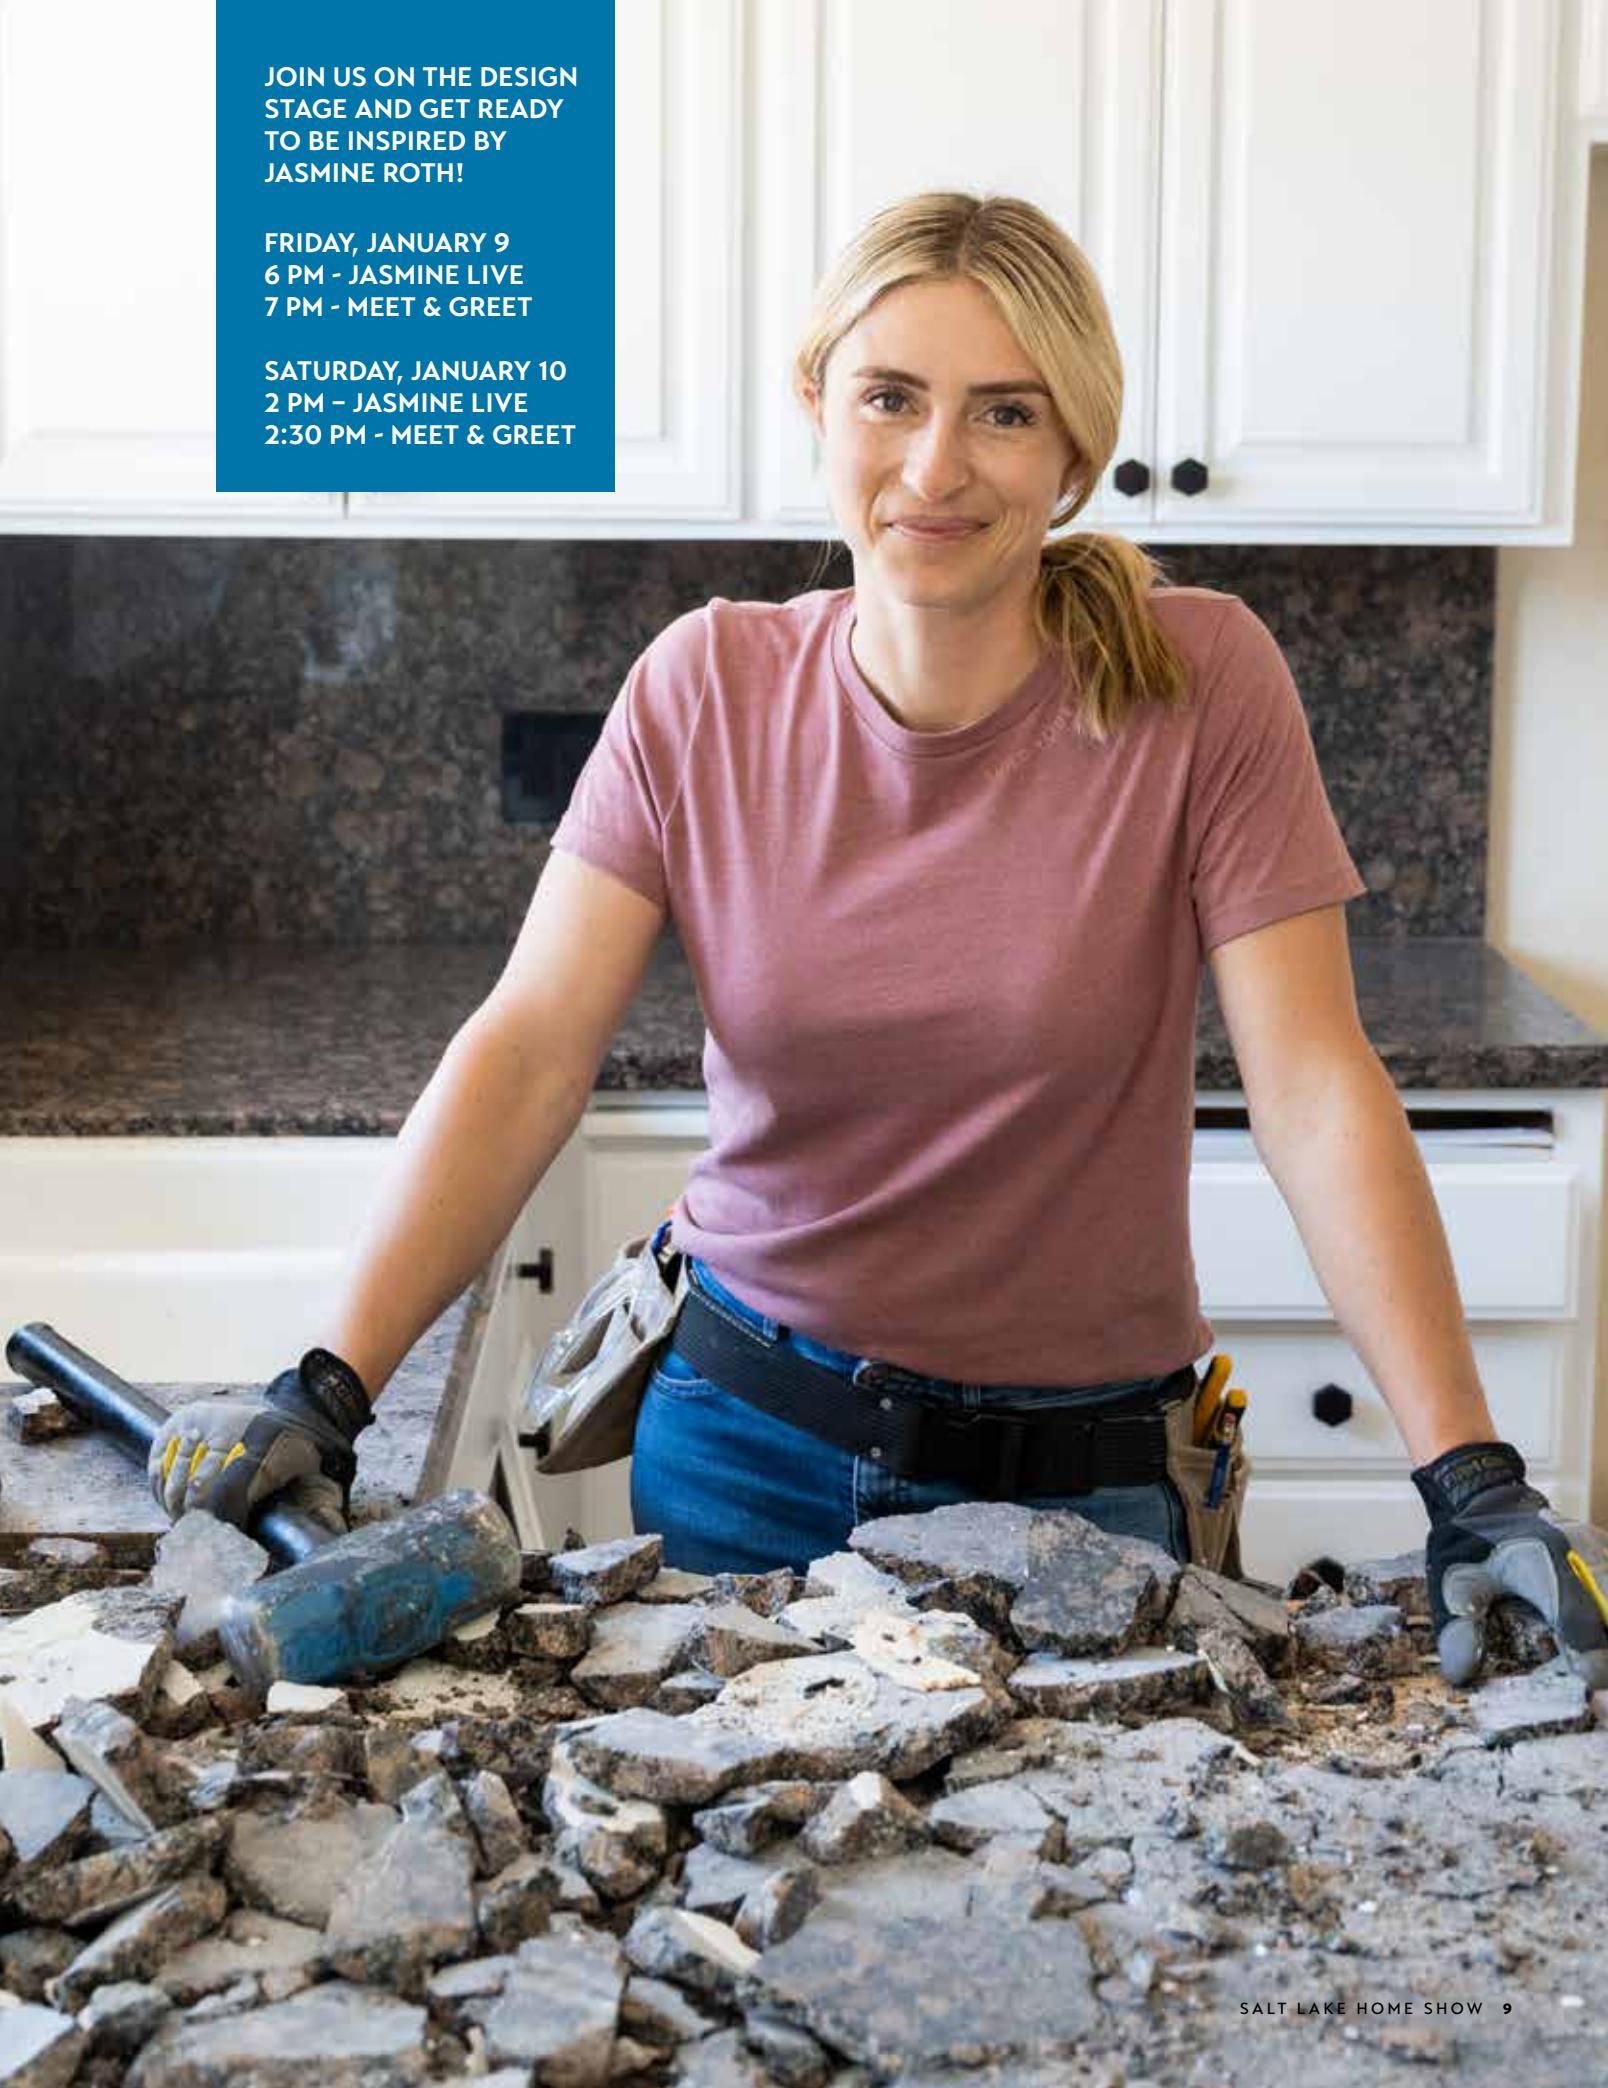

Now, Jasmine is expanding her brand again with *Your Happy Home*, a new platform showcasing her expertise—from building homes from the ground up to curating every last detail inside them. And when she's not designing, she's busy entertaining, cooking, snowboarding, and spending time with her family—especially daughter Hazel, who often appears in her posts.

**FRIDAY, JANUARY 9**  
6 PM - JASMINE LIVE  
7 PM - MEET & GREET

**SATURDAY, JANUARY 10**  
2 PM - JASMINE LIVE  
2:30 PM - MEET & GREET

In this exclusive Q&A, Jasmine opens up about tools, trends, her favorite paint color, and what she refuses to DIY.

**What home gadget or tool should every homeowner own?**

"Ok, I made fun of my husband for buying this, but Black & Decker makes a battery-powered leaf blower/outdoor vacuum and we use it all the time! I personally recommend a Milwaukee impact driver/drill set with a 12V battery, which is much smaller and lighter, and still plenty of power for 99% of DIY projects."

**Are you a plant fanatic, or is your green thumb lacking?**

"Lacking! I'm just trying to keep my kids alive—the plants have to fend for themselves these days."

**What's in your bag or purse?**

"Tape measure—and not just any tape, a Stanley Powerlock 30'. I have one in my car, one in my nightstand, one on my desk, in my kitchen drawer, in my garage, in my bathroom drawer, and of course... my purse."

**What's your favorite HGTV series?**

"A little show called *Help! I Wrecked My House* of course!"

**In your opinion, what's the most underrated tool in your toolbox?**

"A good old-fashioned magnetic stud finder."

**What project are you currently working on?**

"I bought my first ever commercial space for my company Built Custom Homes and of course, it's a full build-out. It's located right here in Utah and I'm trying to get it finished so I can keep expanding my business here."

**Tips for incorporating a new design trend into your home?**

"Don't! Ha just kidding. I love a new design trend... My recommendation is to give it a beat before jumping in with both feet. Think about it for a week and if you still want to do it, chances are it's not something you'll regret."

**What is one project you tell people NOT to do as DIY?**

"Over and over I tell people! Don't do your own electrical, plumbing, or anything to do with gas."

**What's your favorite paint color?**

"I love Sherwin Williams Westhighland White SW7566 right now."

**What do you enjoy about being at a home show?**

"I love a home show! It's so inspiring to get insight into new products and local vendors. The reason I do this job is because I love to learn and I learn a LOT at home shows."

**When you design a room, what is the most important interior design advice you give?**

"Be intentional. Pick 1-3 textures or materials and use them over and over... You suddenly have created cohesion between your entire house."

# CLEAR THE CHAOS

## Organizing Your Cupboards & Closets

Cupboards and closets are the hidden heroes of the home—until they aren't. When shelves start overflowing, doors won't close, and you can't find what you need without a mini excavation, it's a sign that your storage spaces need a reset. The good news? You don't need a full remodel to get beautifully organized cupboards and closets. With a strategic approach and a few clever tools, you can reclaim your storage and create spaces that work with you, not against you. Here's how to transform your most-used storage areas into efficient, functional, and even beautiful spaces.

### Declutter With Purpose

Once everything is out, sort items into these categories:

- Keep
- Donate
- Toss
- Relocate

Be honest about what you use regularly and what's been sitting untouched for months—or years. Expired pantry goods, stained linens, unused toiletries, and outgrown clothes are easy wins. For tougher decisions, use the "frequency test": If you haven't reached for it in a year, it probably doesn't deserve prime storage space.

### Group by Category (Not by Where It Was Before)

Instead of returning items to their original spots, reorganize by category:

- Kitchen cupboards: snacks, baking supplies, spices, dinnerware, appliances, cleaning products
- Clothing closets: tops, pants, dresses, accessories, shoes, bags

- Linen closets: towels, sheets, first-aid, extra toiletries, cleaning essentials

This system helps you create intuitive zones—making it easier to find what you need and put things away.

### Maximize Vertical Space

Most cupboards and closets waste a surprising amount of vertical space. Add inexpensive solutions like:

- Shelf risers
- Hanging organizers
- Over-the-door racks
- Under-shelf baskets
- Stackable bins

In closets, double your hanging space with a second rod, or use slim velvet hangers to instantly create room and uniformity.

### Choose Containers That Work Hard

Bins and baskets aren't just for aesthetics—they make storage systems smarter. Use:

- Clear bins for snacks, toiletries, and cleaning items
- Woven baskets for lin-

ens or clothing accessories

- Lazy Susans for spices, oils, and supplements
- Drawer dividers for small items

Label everything. It's the simplest way to maintain order and ensure everyone in your household can follow the system.

### Put Daily Essentials Front and Center

Reserve the easiest-to-reach shelves and rods for items used every day. Seasonal or occasional-use items—holiday decor, winter coats, formal serveware—can live on high shelves, in bins, or under beds. This prevents clutter creep and makes your most-used items a breeze to grab.

### Make It Beautiful

A stylish cupboard or closet might sound like a luxury, but small design touches can make a big difference. Try:

- Matching hangers
- Coordinated storage bins

- Peel-and-stick wallpaper behind shelves

- A small motion-sensor light for dark closets
- Fresh sachets or diffusers for a clean scent

When a space feels good to open, you're far more likely to keep it tidy.

A well-organized cupboard or closet isn't just a convenience—it's a daily stress-reliever. With a little intention and some budget-friendly tools, you can transform even the messiest storage spaces into functional, beautiful areas that make your home run smoother.

And if you're looking for expert advice, smart storage products, or inspiration for organizing every room in your house, don't miss the hundreds of exhibitors and vendors at the Salt Lake Home Show all weekend long. They're ready with hands-on solutions to help you tackle any space—even the trickiest cupboards and closets.
