

# PRO FISHING SEMINARS

PRESENTED BY

## FLY FISHING TROUTFITTER STYLE

Presented by: KEN COLLINS

Ken has been in and around fly fishing since his Grade 7 gym teacher introduced him to this interesting and effective way to fish. His passion took him to casting competitions, demonstrations, teaching and using other opportunities to share his passion for this sport. Ken was Ontario's first FFF Board certified fly casting instructor and if there was a way to help people get introduced to fly fishing - he was probably involved! Ken has also explored fly fishing, travelling with his tackle looking for just about anything that has fins and gills. To help get quality equipment and information to the community, he ran a fly fishing only store for 20 years and continues to run one of Ontario's most renowned education programs and operates a world class guiding operation on Ontario waters. Ken would like to help you discover the joy of fly fishing. This seminar will explain why you need to consider fly fishing. It's a fun and exciting way to experience waters around the world that is surprisingly easy and available to enjoy.
